

# AXESS® OVERVIEW

Axess® MPS is a comprehensive and fully integrated suite of software and services designed to help dealers deliver more profitable MPS solutions. Both flexible and scalable, Axess® MPS enables dealers to effectively compete in the dynamic managed print services market. Available as a turnkey MPS solution or as à la carte products and services, Axess® helps dealers quickly launch and manage a successful MPS program.

Axess® MPS includes the following key infrastructure tools supported by a dedicated team of MPS professionals:

## AXESS EXPRESS™

Full service program designed to accelerate the launch and growth of your MPS program

## AXESS® TCO AND PROPOSAL TOOL

- Construct MPS proposals with total confidence
- Utilizes data from BEI Services, the leading provider of MPS industry data
- Helps ensure profitability of your MPS program

## AXESS® MPS REMOTE MONITORING

- Most accessible remote monitoring software in the industry
- Backed by our dedicated team of MPS professionals

## AXESS® AUTO TONER FULFILLMENT (ATF)

- Simplifies and streamlines the supplies ordering process
- Automatic ordering, shipping, and delivery of printer supplies saves customers money by eliminating “rush” or overnight orders

## AXESS SALES PRO™ MPS TRAINING

- Comprehensive, flexible MPS training program
- Innovative online training
- Helps sales team learn to sell and implement MPS contracts effectively
